EXAM SC-300 TOPIC 4 QUESTION 8 DISCUSSION

Actual exam question from Microsoft's SC-300

Question #: 8

Topic #: 4

[All SC-300 Questions]

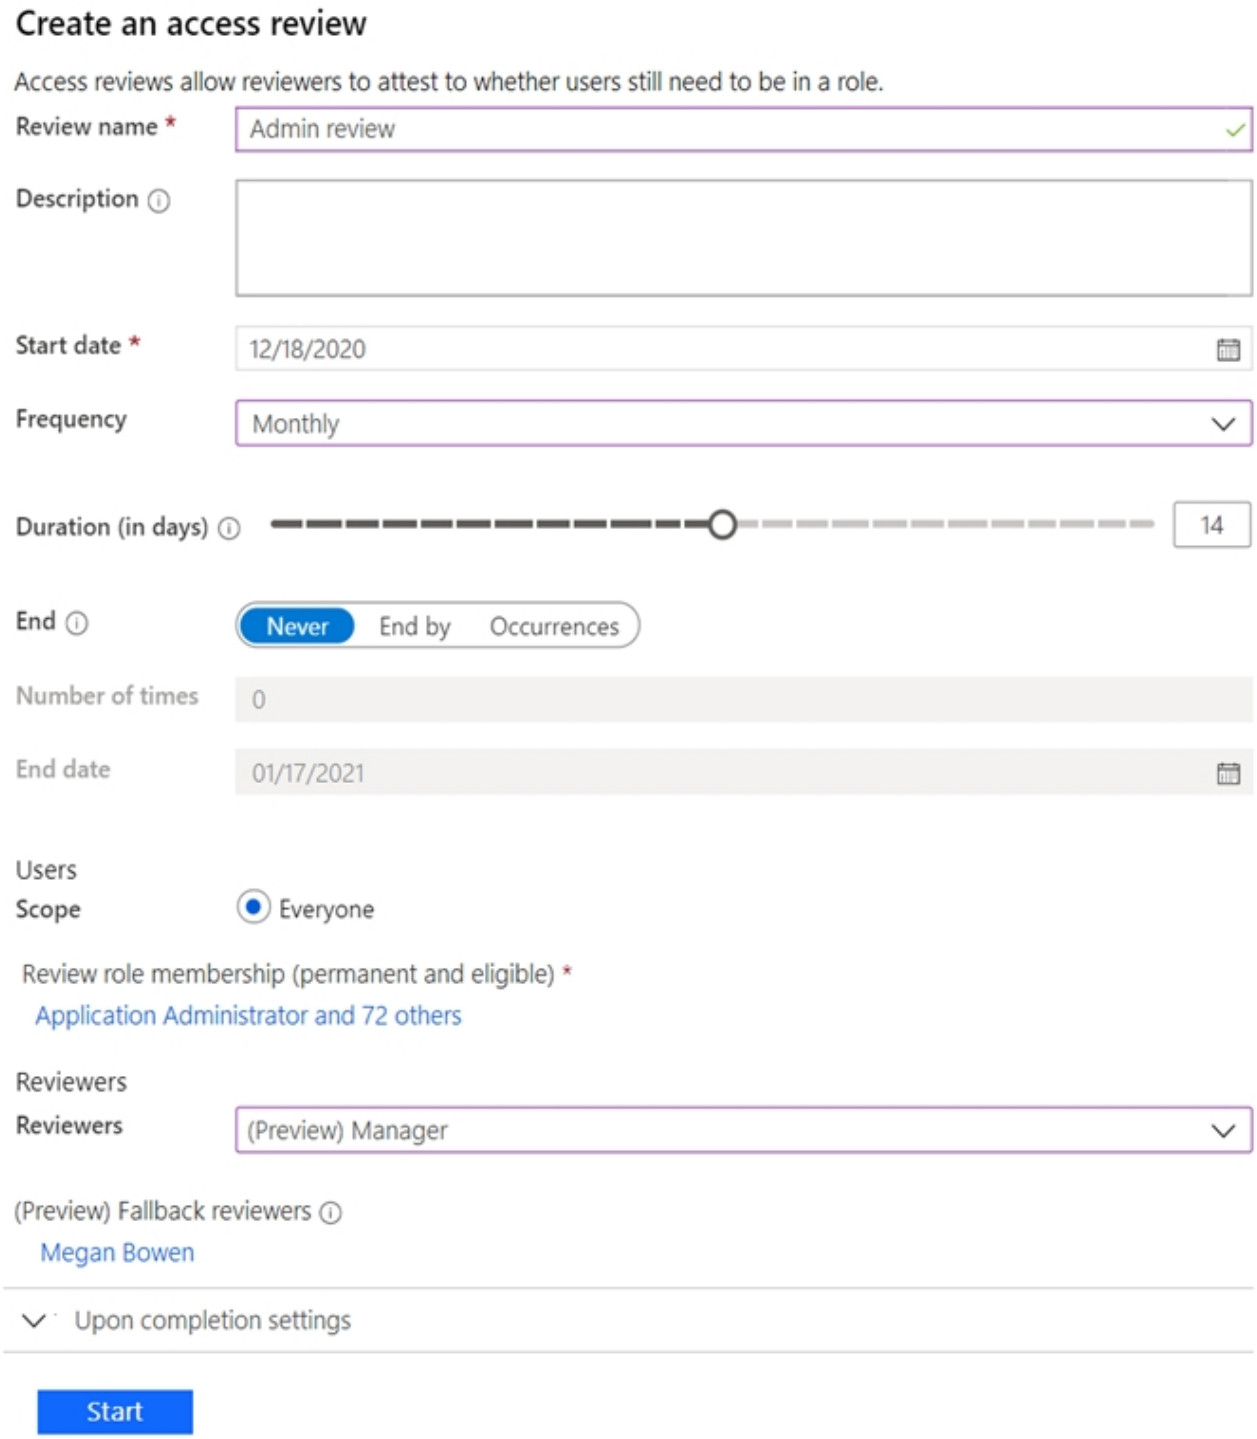
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 tenant.

You have 100 IT administrators who are organized into 10 departments.

You create the access review shown in the exhibit. (Click the Exhibit tab.)



You discover that all access review requests are received by Megan Bowen.

You need to ensure that the manager of each department receives the access reviews of their respective department.

Solution: You create a separate access review for each role.

Does this meet the goal?

A. Yes

B. No

No - each access review would still send review approval to Megan as no manager has been set for the user accounts under review.

Selected Answer: B

No mgr assigned. Unless set to managers of users and user object has to have manager assigned too.

No, no admin reviewer set and Megan is the fallback reviewer. She will still receive reviews.

No
If you choose either Managers of users or Group owner(s), you can also specify a fallback reviewer. Fallback reviewers are asked to do a review when the user has no manager specified in the directory or if the group doesn't have an owner.

Answer NO

Why reason
Because admin review is not modified, Megan Brow as Fallback Reviewer will still receiving reviews, no manager has been assigned to admin review.
