Exam question from Amazon's AWS Certified AI Practitioner AIF-C01

Question #: 283

Topic #: 1

[All AWS Certified AI Practitioner AIF-C01 Questions]

HOTSPOT

-

Select the correct AI term from the following list for each statement. Each AI term should be selected one time.

Simulates human problem-solving capabilities

Select...
- AI
- Deep learning
- ML

Applies data-driven learning techniques to make predictions

Select...
- AI
- Deep learning
- ML

Focuses on processing data through intricate neural networks

Select...
- AI
- Deep learning
- ML

Artificial Intelligence (AI) is the broad field focused on simulating human intelligence—problem solving, reasoning, planning, perception.
Machine Learning (ML) is a subset of AI that uses data-driven algorithms to make predictions or decisions without explicit programming.
Deep Learning is a subset of ML that uses multi-layer neural networks for tasks like image recognition, NLP, and pattern learning.
