EXAM AWS CERTIFIED AI PRACTITIONER AIF-C01 TOPIC 1 QUESTION 133 DI...

Exam question from Amazon's AWS Certified AI Practitioner AIF-C01

Question #: 133

Topic #: 1

[All AWS Certified AI Practitioner AIF-C01 Questions]

A company wants to enhance response quality for a large language model (LLM) for complex problem-solving tasks. The tasks require detailed reasoning and a step-by-step explanation process.

Which prompt engineering technique meets these requirements?

A. Few-shot prompting

B. Zero-shot prompting

C. Directional stimulus prompting

D. Chain-of-thought prompting

Selected Answer: D

This technique encourages the model to explain its reasoning step by step, which is ideal for tasks that require detailed reasoning and complex problem-solving.

Selected Answer: D

Chain-of-thought (CoT) prompting is one of the oldest “chain of” methods for improving LLM performance – in particular in the context of queries or tasks that need complex, human-like reasoning to reach an answer.
